

siniac GmbH

sustainable innovation
in applied chemistry

your partner for innovation and cost reduction

Who we are

founded in 2012 by Dr. Wolfgang Klauck

Dr. Wolfgang
Klauck

- Siniac GmbH
Founder & CEO
- Start-up nanoSky AG
CEO & CTO
- Henkel AG&Co KGaA
Corporate VP R&D
- more than 25 years in leading
international R&D, Packaging
and Innovation positions
- PhD in Physical Chemistry
University of Saarbruecken
(summa cum laude)
- Profile in detail:
<https://www.linkedin.com/in/dr-wolfgang-klauck-77a0bb2b/>
- more than 45 relevant patent applications
<https://patents.justia.com/inventor/wolfgang-klauck/>

Dr. Lydia
Duhm-McCann

- Siniac GmbH
Marketing Director
- Henkel AG&Co KGaA
Innovation Champion
- more than 15 years in
international Marketing,
Innovation and R&D positions
around Europe
- PhD in Polymer Chemistry
University of Hamburg
- Profile in detail:
<https://www.linkedin.com/in/dr-lydia-duhm-mccann-9023aa10/>

Focus Team

Group of internal and external experts to lead and stir projects successfully together with the customer.

Laboratory Staff

Scientists and lab technicians to develop, test and scale-up innovation projects in our own facilities

What we do

...imagine, you need help to....

- develop a **new** product or **formula**
- find the **competitive edge**
- fill the **innovation pipeline**
- **fund** innovative project ideas
- realize **cost efficiencies**
- improve product **quality**

...then you need to talk to us!

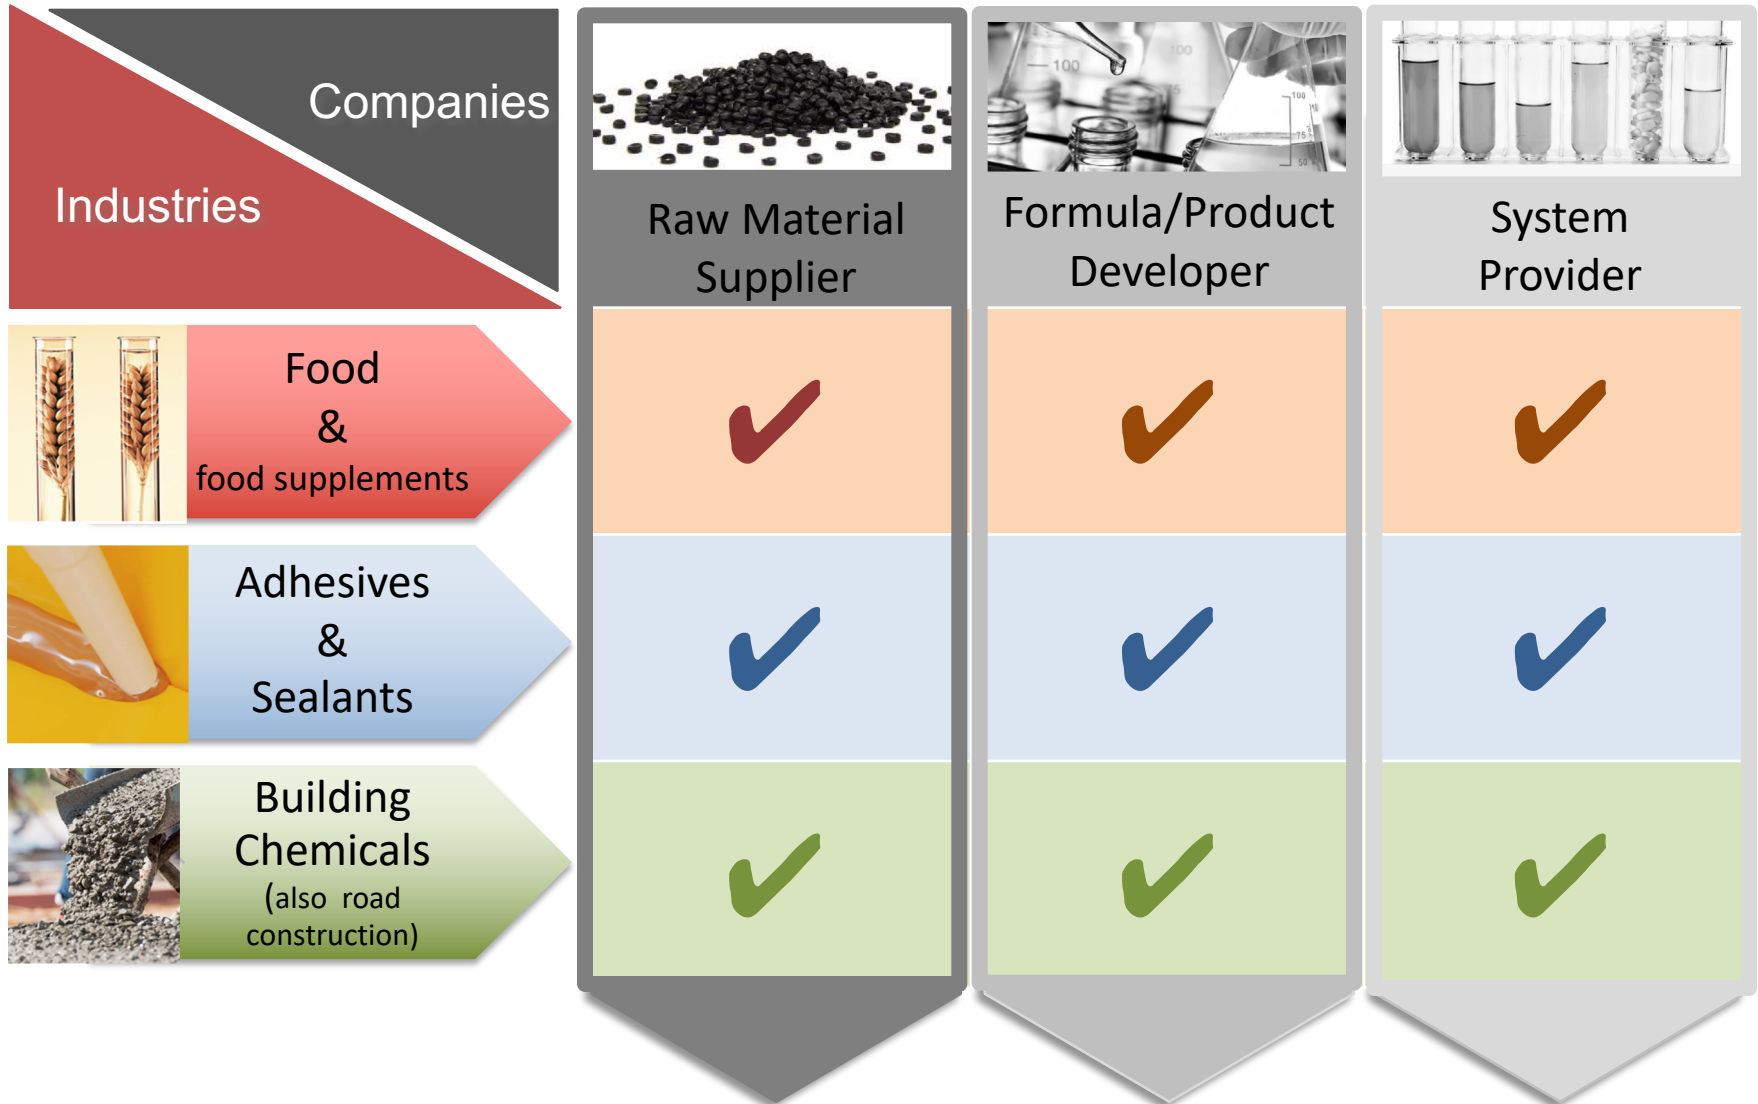

What we do

Our areas of expertise

CONSULT and actively support you	SOLVE your current problems	DEVELOP on demand with/for you
- innovation pipeline short and long term	- quality issues caused by process or raw materials	- special raw materials suitable for product requirements
- patent strategy to focus on innovation	- raw material shortage by finding alternatives	- new formulas / products for individual needs
- project funding for joint innovation projects	- new applications for e.g. waste materials	- innovative technologies

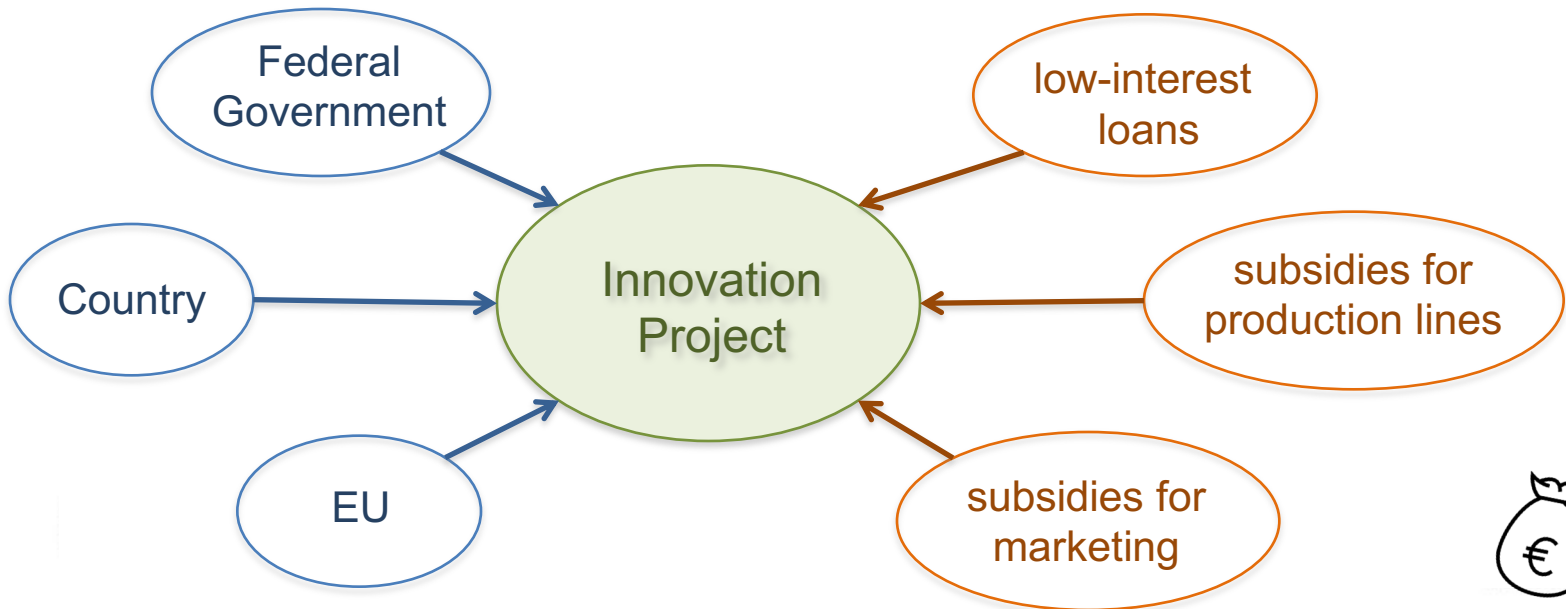

What we do

We focus on small to medium sized companies.

What we do

We help you to find the right national and international state supported funding programmes for our joint projects.

What we do

Some of our recent successful development projects.

Food

Food supplement products to increase well-being

Healthy beverages including essential minerals

Sports nutrition

Adhesives

Products based on renewable raw materials

Fast-setting reactive adhesives

Building Products

Road repair products with innovative properties

Self-cleaning-surface products

Where we are

Karl-Arnold-Strasse 2a
D - 47877 Willich
Germany

www.siniac.com

25km - west of Duesseldorf
50km - north of Cologne
250km - north/west of Frankfurt

Our premises:

- laboratories
- pilot plant for scale up
- quality testing equipment
- ware house for raw materials and packaging
- filling facilities
- food-approved area
